Alleluia Cocoa For Farmers

Alleluia Cocoa and Manna thank GOD for the successful meeting held with cocoa producers and cooperative representatives on **Wednesday, 26 August 2026.**

The meeting brought together representatives from **Cameroon's major cocoa-producing regions, leading cocoa experts and other sector stakeholders**. It also celebrated the presence of a **producer whose cocoa received international recognition at the 2025 Cocoa of Excellence Awards**.

The focus was clear: **to listen to producers, understand their realities and explore practical ways of strengthening the cocoa value chain**. Discussions covered cocoa collection, quality, traceability, storage, farmer payments and access to stronger markets.

Manna's role in supporting accessible and traceable payments was highlighted, alongside **Alleluia Cocoa's commitment to connecting producers with stronger market opportunities**.

In keeping with the mandate, Alleluia Cocoa by the grace of GOD envisions a cocoa sector whose growth **transforms farmers' lives**. And in keeping with it's bible verse, Alleluia Cocoa envisions a cocoa sector whose growth **rewards their work fairly** and enables them to share meaningfully in the prosperity their cocoa creates.

By the grace and help of GOD, Alleluia Cocoa seeks to transform the cocoa sector, advance rural development and create opportunities for future generations.
